

In April 2013, the City Council approved work on the El Camino Real and San Antonio Precise Plans, to begin implementing the City's 2030 General Plan. Over the summer, City staff and the consultant teams collected data and analyzed conditions in the two areas.

**UPCOMING MEETINGS:** In the next two months, kick-off meetings are scheduled with the Environmental Planning Commission (EPC) and City Council to review and discuss the background information collected over the summer for the San Antonio and El Camino Real areas:

- EPC - Wednesday, September 11, 2013
- City Council - Tuesday, October 8, 2013

- EPC - Wednesday, September 18, 2013
- City Council - Tuesday, October 15

Meeting agendas with final meeting times and locations as well as the staff reports will be posted on the City and Precise Plan websites three business days prior to each meeting. We encourage you to attend these meetings to learn more and provide your input.

The upcoming meetings are part of a broader process that will include a variety of opportunities for public input. A meeting with the Bicycle/Pedestrian Advisory Committee is also tentatively scheduled for September 26, 2013.

**PROJECT WEBSITES:** The websites for the projects will be launched in early-September. Check the websites to stay up-to-date on the projects and get information on upcoming meetings and project reports. You can also provide online input on the Precise Plans.
